# 500!

Yesterday, the 500th patient was enrolled in the RACC-trial. The enrollment the past month has been amazing and we hope we can reach 600 within 4 months.

Keep up the good work!

A few reminders from the Investigator meeting:

1. Please make sure to include all eligible patients in the screening log. *This will allow us to report potential selection bias.*
2. Please make sure that all patients fill out QoL questionnaires before randomization and continue collecting the forms according to the protocol. *QoL will be one of the most important outcomes in the trial.*
3. We will schedule a separate meeting for all data managers (or anyone involved in data entry) in a few weeks time to go through any difficulties you may have with the eCRF
