300!

**Today, the 300th patient was enrolled in the RACC-trial!
Great work - let's aim for 50% (384) before September!**

- As we have reached 300 enrolled patients, the DSMB will finalize the first interim analysis
- We would like to remind all centers to complete data entering for all enrolled patients up until today before March 31st
- We have started to plan the first "face-to-face" investigator meeting and we will invite all PIs to join in Stockholm in November. More information will follow

Keep up the good work and let us know if you need additional support!

Deadline for data entering is March 31st 2022
